

SAKSHAM KHARE

FULL-STACK WEB DEVELOPER | COMPUTER SCIENCE UNDERGRADUATE

Jhansi, UP, India • +91 9336061532 • sakshamkhare563@gmail.com • github.com/sakshamkhare18

SUMMARY

Computer Science undergraduate and Full-Stack Web Developer with practical experience in frontend user interface engineering, RESTful API integration, and asynchronous programming. Built real-world web applications and completed comprehensive full-stack training, with strong competencies in JavaScript, Java, responsive layout architecture, and version control.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), HTML5, CSS3
Web & Backend: React.js, Node.js, RESTful APIs, JSON, Responsive Web Design, DOM Manipulation
Databases & Tools: MongoDB, SQL (Basics), Git, GitHub, VS Code
Core Competencies: Object-Oriented Programming, Data Structures, Asynchronous Logic, UI Optimization, Debugging

TECHNICAL PROJECTS

- GitHub Profile Finder** — *JavaScript, GitHub REST API, HTML5, CSS3* **Personal Project**
- Engineered an interactive single-page application that queries the GitHub REST API to fetch and render real-time developer profiles, repository statistics, and follower data.
 - Implemented asynchronous data fetching, dynamic DOM rendering, and defensive error handling for invalid queries and API limits.
- Live News Aggregator Website** — *JavaScript (Async/Await), News API, CSS3* **Personal Project**
- Developed a real-time responsive news portal fetching breaking headlines across Tech, Sports, and Business via external REST APIs.
 - Implemented search filtering, dynamic category tabs, article card components, and fallback image handling.
- GullyMart — E-Commerce Frontend** — *HTML5, CSS3, JavaScript* **Academic Project**
- Designed and coded a multi-page responsive frontend interface with product grids, catalog navigation, and intuitive UI layouts.
- Personal Developer Portfolio** — *HTML5, CSS3, JavaScript* **Personal Project**
- Created and hosted a clean personal portfolio to demonstrate web applications, skills, certifications, and direct contact options.

WORK EXPERIENCE

- Codec Technologies** — **Frontend Developer Intern** **02/2026 – 03/2026 | Jhansi, India**
- Constructed clean, responsive web components and translated UI wireframes into standards-compliant HTML5 and CSS3 code.
 - Resolved layout inconsistencies across mobile and desktop viewports, enhancing page load and visual appeal.
 - Collaborated with team members on debugging, testing, and implementing incremental UI enhancements.

EDUCATION

- SR Group of Institutions** — **B.Tech in Computer Science** **09/2024 – Present | Jhansi, UP**
Core Modules: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Web Technologies.

CERTIFICATIONS & ACHIEVEMENTS

- | | |
|---|--|
| Full-Stack Web Development Bootcamp — Udemy
Comprehensive frontend, Node.js backend, and REST API development. | Web Development Training — Codec Technologies
2-month practical frontend internship and development training. |
| Google Cloud Skill Boost — Google Cloud
Cloud foundational modules and developer challenge participation. | Languages — English & Hindi
English (Professional Proficiency), Hindi (Native Proficiency). |
